INFUSORIA ✓

Microscopic study of tiny inhabitants of fresh water ponds, invisible to the naked eye; particularly fine views of the Vorticella, the Stentor and the Hydra, which will found valuable for class-room study.

This document is from the Library of Congress
“Motion Picture Copyright Descriptions Collection,
1912-1977”

Collections Summary:

The Motion Picture Copyright Descriptions Collection, Class L and Class M, consists of forms, abstracts, plot summaries, dialogue and continuity scripts, press kits, publicity and other material, submitted for the purpose of enabling descriptive cataloging for motion picture photoplays registered with the United States Copyright Office under Class L and Class M from 1912-1977.
